asian corner block large

A decorative rectangular frame made of thin, black, flowing lines. The lines are arranged in a symmetrical, wavy pattern that resembles stylized leaves or petals. The frame is composed of four main sections, one on each side, with smaller, more intricate details at the corners and midpoints. The overall effect is a delicate and elegant border.

excitement large corner 1

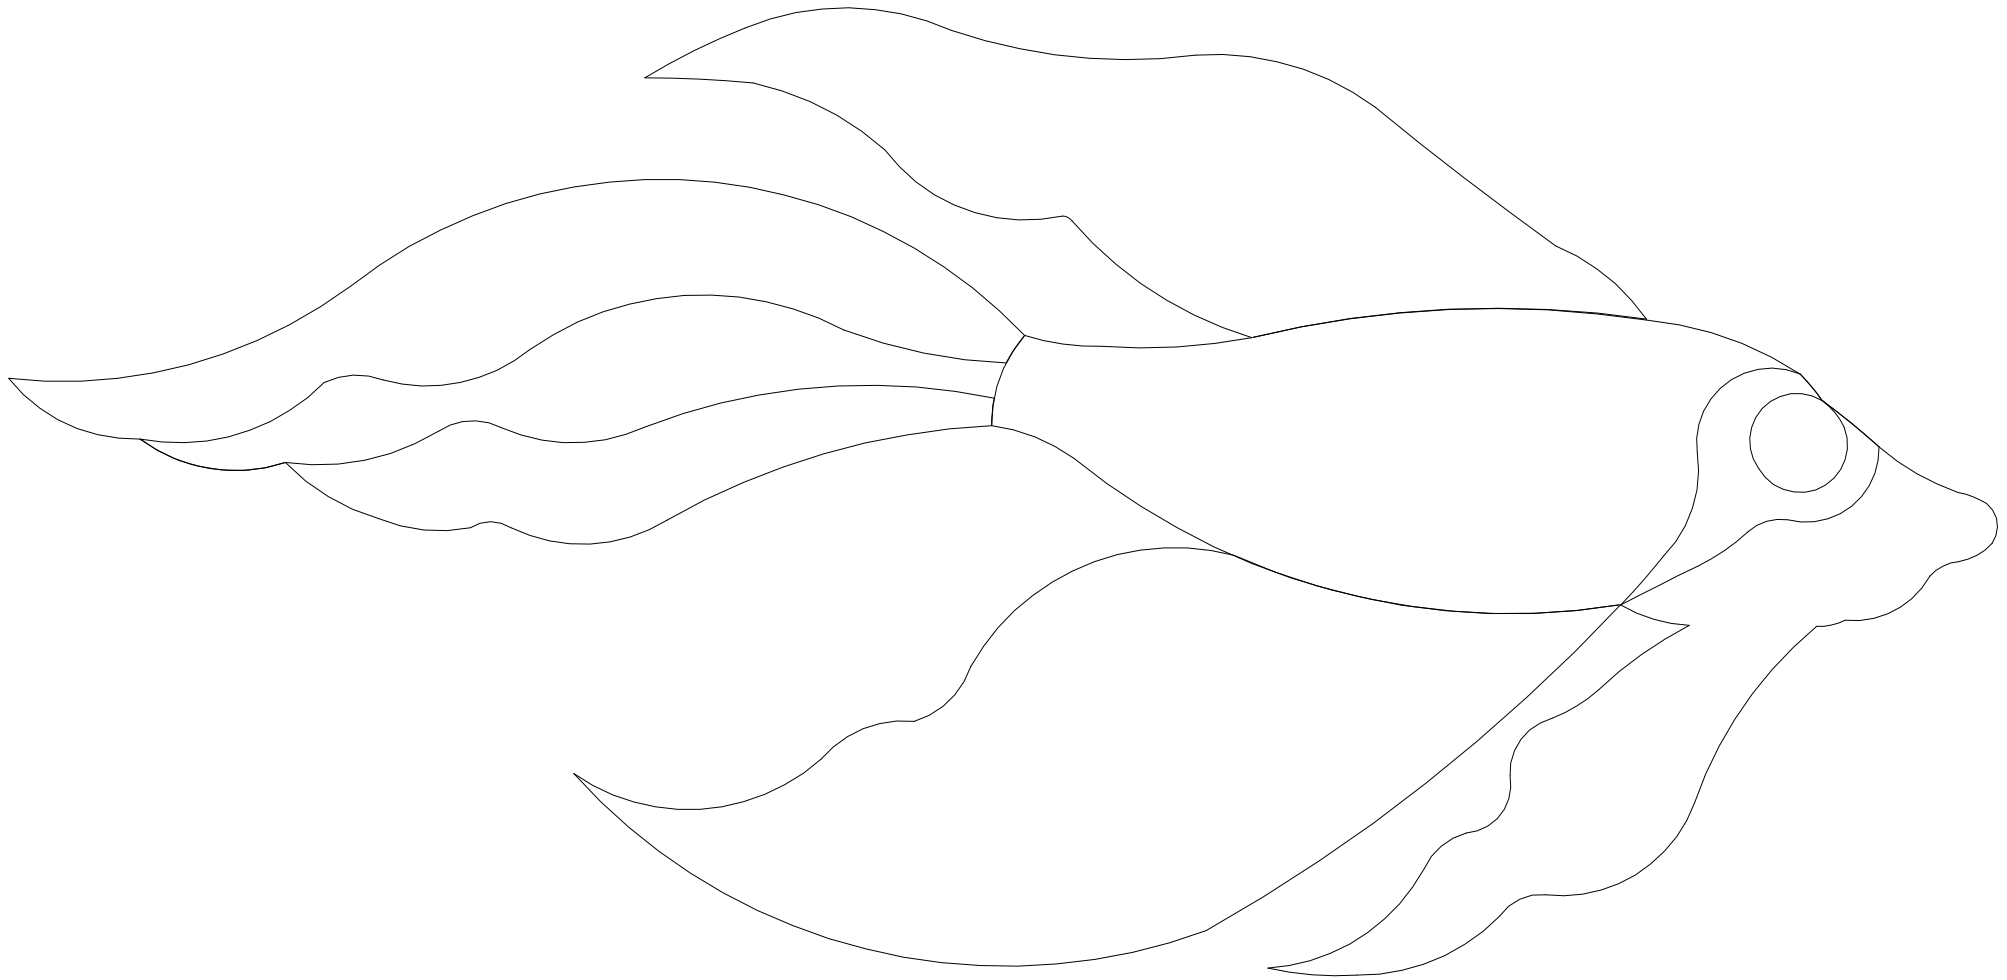

excitement square corner

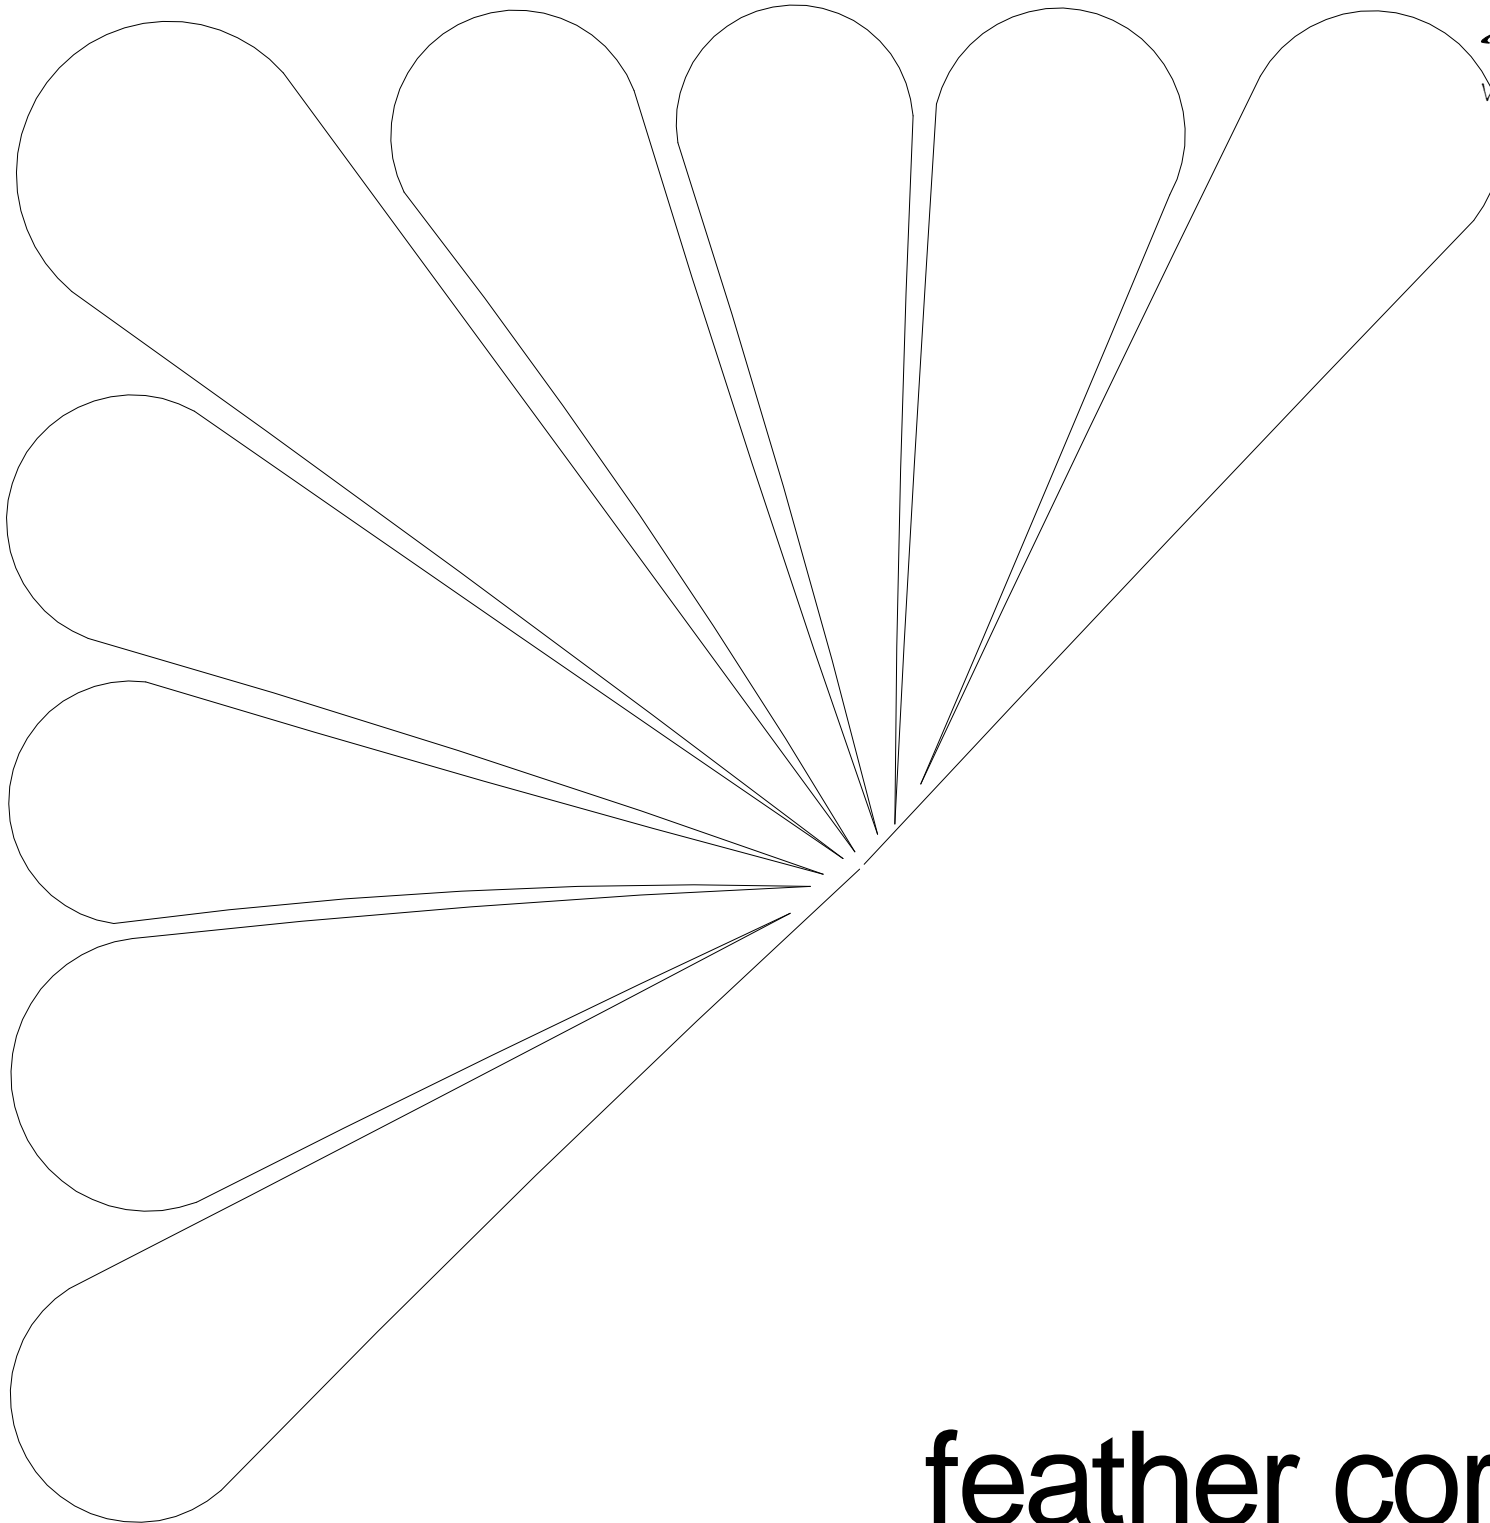

The image features a complex, abstract line art design composed of numerous overlapping, teardrop-shaped outlines. These shapes are arranged in a way that they collectively form a square corner, with the design extending from the top-left towards the bottom-right. The lines are thin and black, set against a plain white background. The overall effect is one of fluid, organic movement within a geometric constraint.

four winds border corner

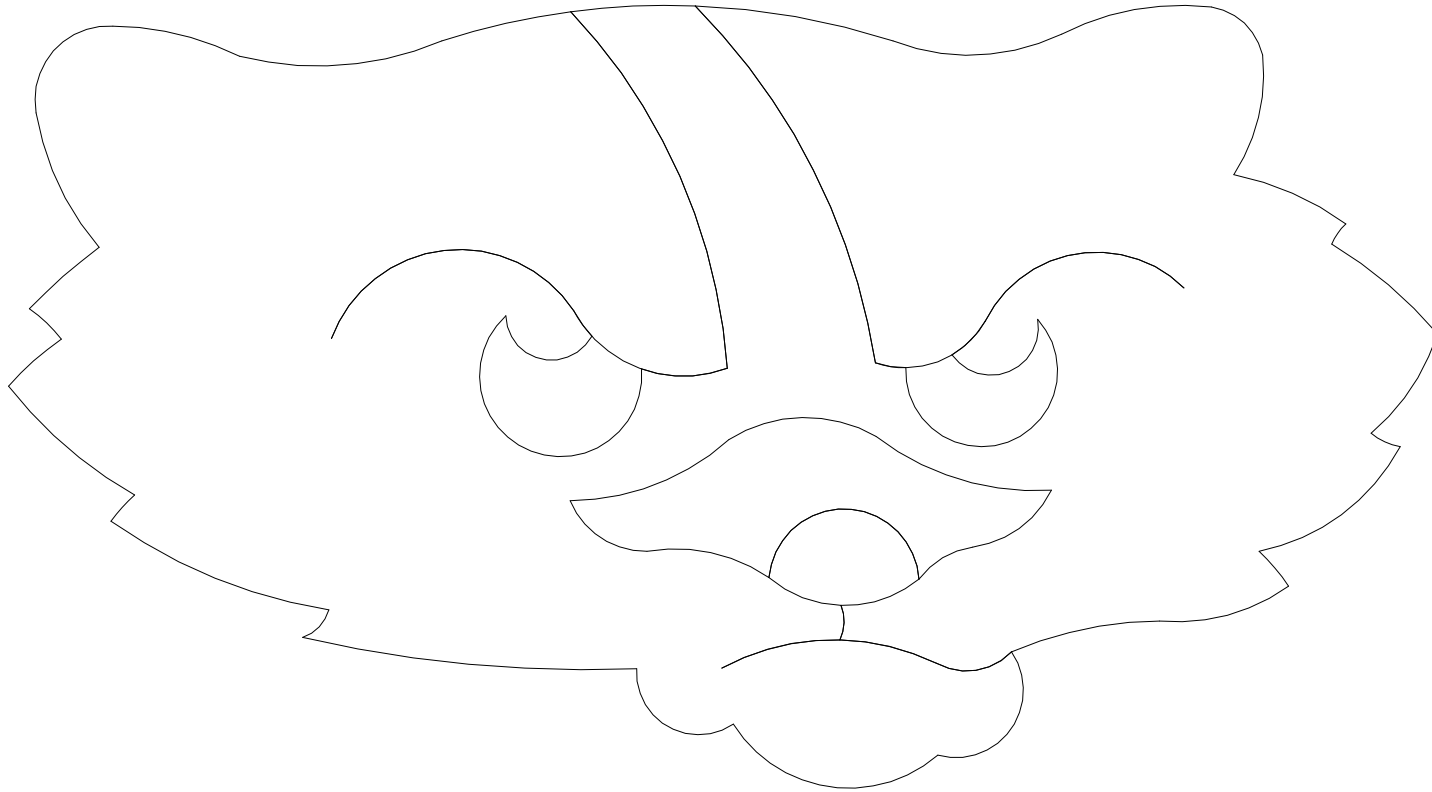

Designs by Vickie
www.designsbyvickie.com

This pattern is based on a 26 inch block. I have split it into two parts, the largest part (in black) is 17.5 inches long, so you must have at least an 18 inch sewable space to run it at the designed size. The second part (in blue) is 16.3 inches with a very easy start point to connect to first part (the red circle). If you are running this in all four corners of a quilt you will need to flip horizontally for the upper right hand corner, flip vertically for lower left hand corner, flip horizontally and vertically for the lower right hand corner.
