pinecones 1 e2e

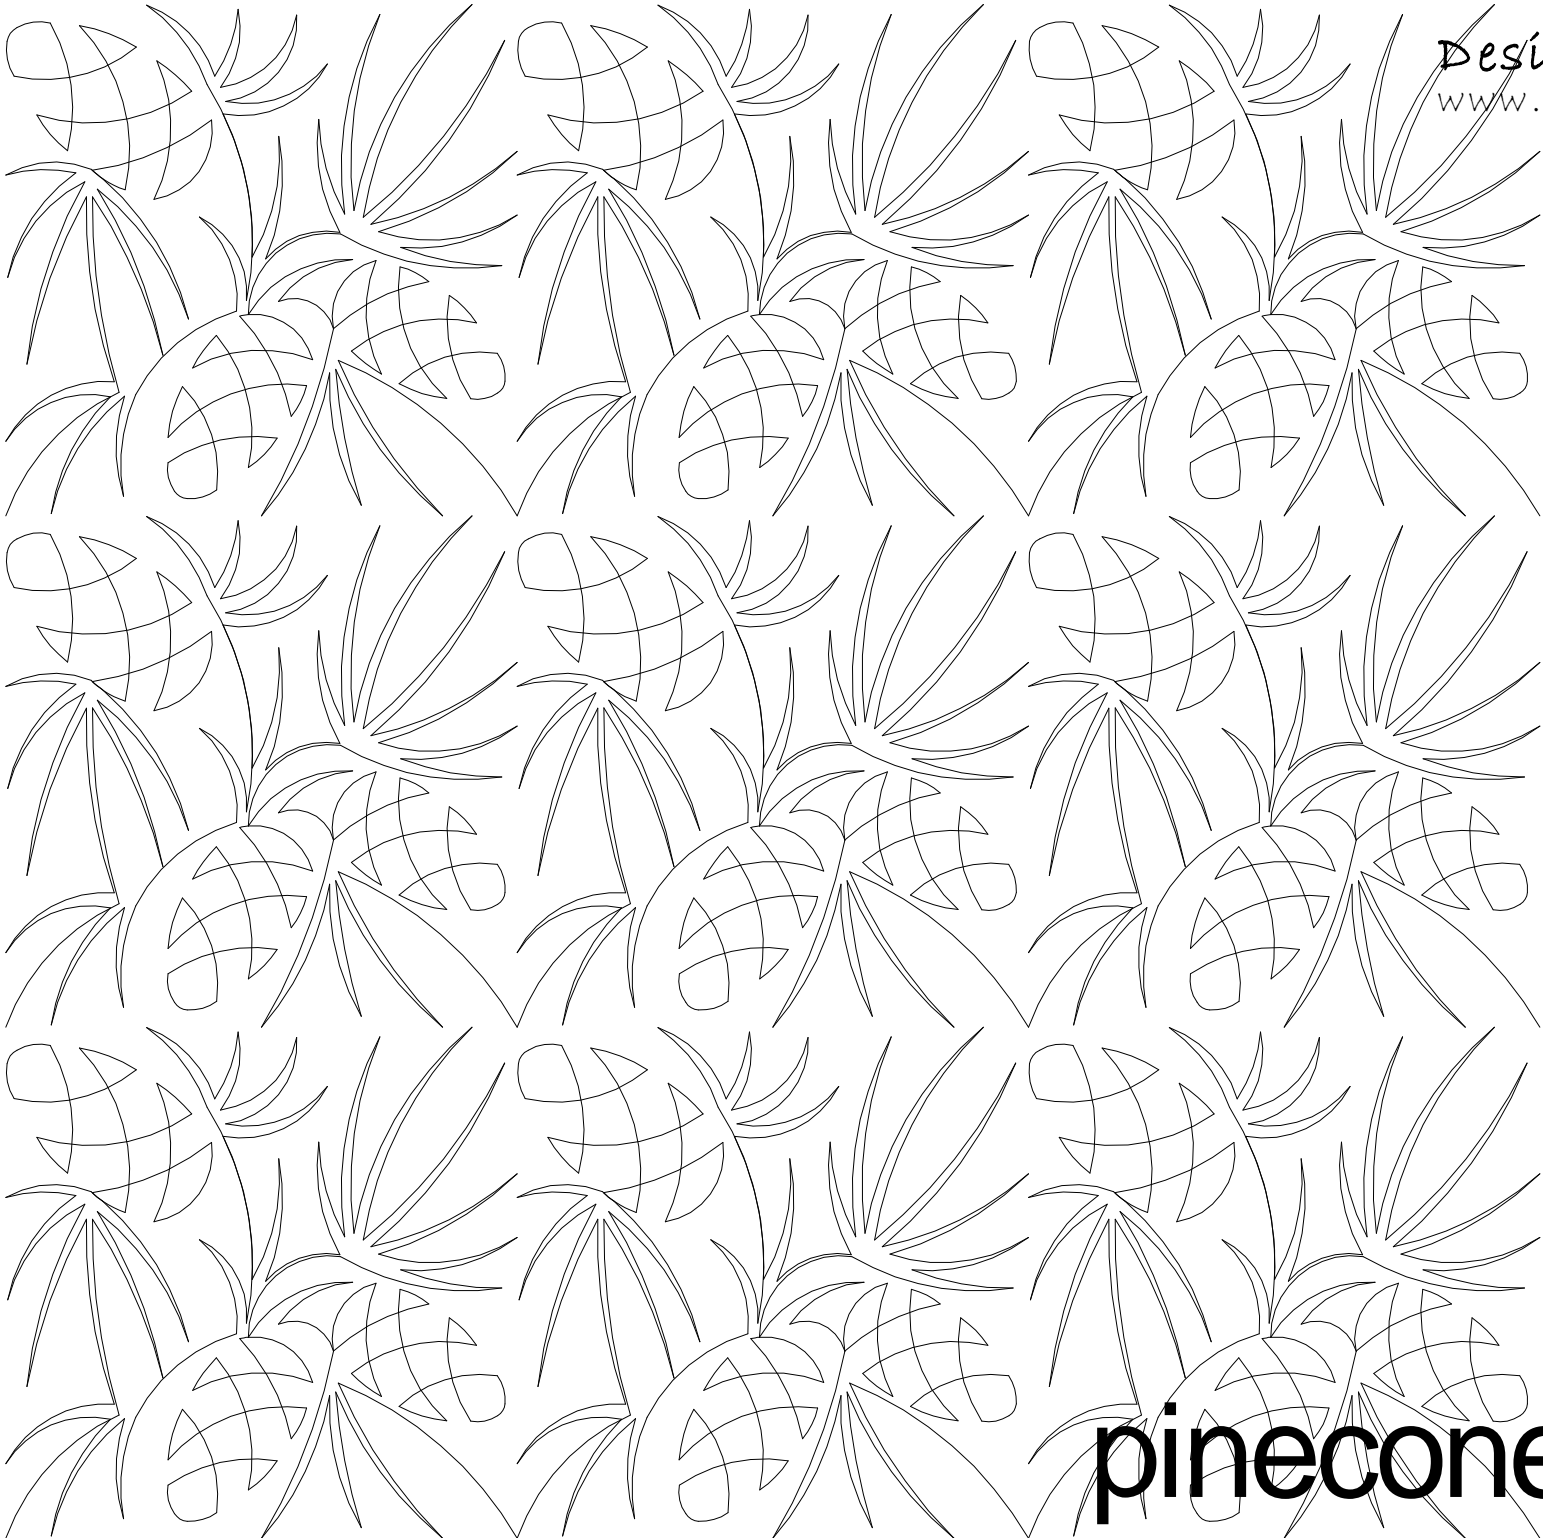

pinecones 1 e2e

The image features a dense, repeating pattern of stylized pinecones and palm fronds. The pinecones are depicted with a series of overlapping, elongated triangular shapes, creating a textured, scaly appearance. The palm fronds are long, slender, and pointed, radiating from a central point. The pattern is rendered in black outlines on a white background, creating a clean, modern aesthetic. The pinecones and palm fronds are arranged in a staggered, overlapping manner, filling the majority of the page.

The image contains four primitive flower designs, each with a central spiral and four rectangular petals. These are interspersed with various swirl patterns, including simple loops and more complex, elongated curls. All elements are rendered as black outlines on a white background, suitable for coloring.
